Thanks Brooks. I can imagine you have a lot going on out there. I will check back with you on Friday morning to see where things are at. I may try to get out to the site, but if not we can talk over the phone.

Tom-  
I'd be glad to talk with you. I am on site and it is a very busy week. I would look toward the end of the week this week if possible. Perhaps Friday if you don't mind. Let me know if sometime in the morning would be available.

Thanks,

**Subject:** Spokane Recycling Update

Brooks, would you have any time this week to discuss (either by phone or at the site) your planned work at the Spokane Recycling site? As you know, we are in the process of preparing a stormwater pollution prevention plan, and I would like to incorporate the work you are doing into our facility description, noting the locations and extent of your planned removal actions. I am not sure whether you are on site, but I am generally available this week and have flexibility to meet or talk at your convenience. Thanks.

Tom

**Subject:** RE: EPA site contacts

James-

I would like to have a quick chat with you about what the existing evening security looks like and how we can have our contracted security guard work cooperatively with what Spokane Recycling has.

I also wanted to discuss Spokane Recycling's communication plans with the current tenant (metal fabrications shop) and to outline how we normally communicate with active tenants on sites we work on.

Let me know how best to reach you and/or whether there is another POC more appropriate to discuss these two matters.

Below is my contact information. Brooks has the same street address.

His contact Info is:

Brooks Stanfield  
Office: 206-553-4423  
Cell: 206-379-2996  
Email: [stanfield.brooks@epa.gov](mailto:stanfield.brooks@epa.gov)

I think I heard you say that you have 6-7 acres on the southwestern side of the property that you agree would be appropriate for us to set up for parking, office trailers, storage, and laydown for equipment and supplies. I'm sure we'll be able to work with that, thank you.

We will continue to coordinate as our plans become more fully cemented.
